

2011 Beaver Vest Badge Layouts

With the addition of the new vest, and the 3 year phase out of the old one, please use the following plan, to determine where best to place badges on the vest. We have tried to avoid sewing on pockets, where possible. There is no "wrong place", but most people want to know where it all belongs... ☺

Notes:

1. There is no specific order within the three groupings of badges.
 - a. Round Yellow – start from the middle and work your way down or out (either way).
 - b. Diamond – space it out, and start from the top centre down.
 - c. Round Blue – start from the top centre, and work your way out. (with these, higher numbered ones, replace the lower ones, ie: 5 nights away, replaces 1 night away)
2. Camp and Event Souvenir badges, can go on a campfire blanket, or the back of the vest if you like.

Questions?
Please ask.
